- Front End Development Libraries
- Data Visualization
- Back End Development and APIs
- Scientific Computing with Python

ABOUT ME

I am currently a Senior Data Integration and Data Analysis Specialist with daily encounters in data management, integration, and ETL processes. Throughout my career, I have gained hands-on experience in working with large datasets, implementing data pipelines, and ensuring the smooth integration of complex systems.

With a solid foundation in programming and data processing, I am eager to contribute to projects in AI, ML, and data science, and I am confident that I would thrive in these rapidly evolving fields. I am always looking for opportunities to deepen my expertise and collaborate with teams to drive impactful results.

WORK EXPERIENCE

01.11.2024 - Present
